ANNUAL REPORT 2003

INNOVATIVE RECYCLING SOLUTIONS

FINANCIAL SUMMARY

For the year ending 30th June

	2003 (A\$'000s)	2002 (A\$'000s)
Total Operating Revenue	1,609,512	1,422,934
Profit Before Interest and Tax	114,177	76,644
Net Interest Expense	(2,199)	(5,436)
Tax Expense	(36,936)	(22,649)
Operating Profit After Tax	75,042	48,559
Net Profit (After Minority Interests)	75,042	48,525
Net Cash Flows from Operations	127,007	103,211
Earnings Per Share - basic	82.2¢	54.0¢
Earnings Per Share - diluted	82.2¢	53.0¢
Dividends Per Share	54.0¢	36.0¢
Return on Shareholders' Equity	18.9%	14.3%
Current Ratio	1.8:1	1.8:1
Net Cash / (Debt)	70,325	(22,850)
Net Tangible Asset Backing per Share	\$3.57	\$2.83

C O N T E N T S

ANNUAL GENERAL MEETING

The Annual General Meeting of Sims Group Limited will be held in the James Cook Ballroom, Hotel Inter-Continental, 117 Macquarie Street, Sydney, NSW on Friday 28 November 2003 at 11:00am. A Notice of Meeting and Proxy Form are enclosed with this report.

Jeremy Sutcliffe
Paul Mazoudier

We are very pleased to report a significant increase in after tax earnings in fiscal 2003 which, at \$75 million, were up 55% on the previous year. This represents a record year for Sims Group, surpassing the previous high by nearly 25%. Sales revenue was \$1.58 billion, up 12% on the previous year, EBITDA was \$151 million, up 32% and EBIT was \$114m, up 49%. The result was achieved through handling 5.14 million tonnes of material, slightly above last year.

The second half of fiscal 2003, in particular, was extremely robust, assisted by a dramatic increase in ferrous prices globally and generally favourable currency exchange rates. The operational performance of the Group and

the efforts of our people, both referred to in more detail below, also made a significant contribution. All our operating regions performed strongly with our North American business enjoying a very solid profit rebound, with EBIT up 118%, assisted by the disposal of its under-performing Southern Californian operations. Once again the Group's UK business recorded a very satisfactory result, up 43% at the EBIT level on the previous year. A similar improvement was enjoyed by our Australasian operations.

Overall, the contribution to EBIT from offshore increased over 51% on last year although, as a percentage of total earnings, it fell slightly because of Australia's strong profit contribution.

Net operating cash flow of \$127 million was up 23% on the previous year resulting in a positive cash balance at year end. Earnings per share at 82.2¢ were up 52% enabling the directors to declare a final dividend of 31¢, 68% franked, up 8¢ on the 23¢ interim dividend and bringing to 54¢

per share, 73% franked, the full dividend for the fiscal year. The final dividend will be paid on 10 October 2003.

Throughout the year, priority was placed on organic growth, improving operational efficiencies, which lead to record shredder production and shredder non ferrous recovery revenues, and the rationalization or disposal of under-performing business units. Considerable time was spent examining potential acquisition targets, principally offshore. This will continue, but only opportunities which clearly add shareholder value will be pursued. It is also very pleasing to report on the development of Sims Recycling Solutions, which was profitable in its first year and provides a sound platform to broaden Sims Group's focus through the processing of a broader range of recyclables.

The Company's commitment to the safety of its workforce and other stakeholders again received particular attention throughout the Group, as we strive to achieve our target of 'zero' work place accidents. The result of our efforts was pleasing, with a 25% reduction in the Group's lost time injury frequency rate from 14.4 to 10.8 year-on-year, building on the 32% reduction in the previous year. Put in context, the Group's LTI frequency rate is nearly half that of the Australian manufacturing sector.

The Board is also committed to ensuring that Sims Group continues to maintain the highest level of corporate governance and compliance. Partly in response to the recently issued ASX Corporate Governance Council Guidelines, we introduced a number of initiatives in this area during the year. A summary of our corporate governance practices can be found later in this report. Adherence to environmental best practices also remained a high priority throughout our global operations.

CHAIRMAN CUTIE'S REVIEW

During the year, the directors continued their practice of visiting the Group's operations and attended the opening of Sims Manufacturing's new state of the art secondary aluminium and plastics recycling facilities in Melbourne, Victoria.

The Board participated with senior management in strategic reviews of all the Group's worldwide operations and also supported the enhancement of the Group's human resources development through a series of targeted programmes. The importance of our people and their contribution to this year's success cannot be understated and the Board would like to extend its congratulations to all employees worldwide for their efforts in helping to achieve this year's record result.

OPERATIONAL RESULTS

Shredding and other ferrous operations

The shredding of post consumer and other obsolescent metaliferous products and the recovery of their ferrous and non ferrous content, continued to be the Company's main profit contributor during the year and, together with other ferrous processing operations, accounted for in excess of 75% of Group PBIT, up over 43% on fiscal 2002. Shredder production, at a record 2.1 million tonnes, was up 5% on the previous year and revenue from non ferrous shredder recoveries at \$131 million was up 14%, another record. This was achieved despite non ferrous metal LME terminal prices continuing to be well below their historical highs.

This excellent operational performance enabled the Group to take advantage of strong demand in the major global consuming markets we service. Although sales into China were at slightly lower levels than in the previous year, demand in China for finished steel led to buoyant steel production in the Asian region. Strong global demand was also assisted by continued tight supply from the countries bordering the Black Sea, with ferrous material flows from this region not expected to return to the high levels seen in past years.

Non ferrous operations

Total non ferrous metals handled (including brokerage and non ferrous shredder recoveries) increased marginally to 327,000 tonnes. In a year when non ferrous prices did not spike to the same extent as ferrous prices, the Group still managed a 34% year-on-year increase in PBIT from the trading of non ferrous metals (excluding metal recovered from shredding operations) on slightly higher sales tonnes. To ensure the Group maintains its position as one of the industry's pre-eminent non ferrous metal trading companies, a centralized group marketing unit, based in Sydney, has been established to co-ordinate and expand Group non ferrous sales and third country trading.

Manufacturing and Joint Ventures

Fiscal 2003 was a challenging year for the Group's wholly owned and joint ventured manufacturing operations. While Sims Aluminium's results improved, a new rotary furnace facility which was commissioned in the latter part of the year should assist this division deliver a much improved performance in fiscal 2004. The Company's Conex joint venture produced a marginally lower profit result. ARA, Sims' lead smelting joint venture, made a significantly lower profit contribution as a result of raw material feed shortages at its Melbourne facility, a stronger Australian dollar and weak lead prices.

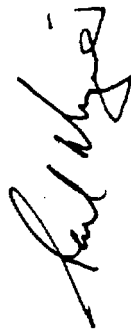

Recycling Solutions

As mentioned above, this newly established division made significant strides during the year with the successful commissioning of Sims UK's first dedicated refrigerator processing plant. A second plant is currently being installed and will commence operations in October 2003. The acquisition of a UK electronic waste recycling business and the launching of an 'e-waste' de-manufacturing operation in the US provided the framework for further growth in this important 'fee for service' sector and raised the Company's profile with relevant stakeholders. A feasibility study on the commercial viability of operating a tyre recycling facility in the UK, utilizing surplus assets acquired with the electronic recycling business, will be completed by calendar year end.

OUTLOOK

The near record high ferrous prices in the early part of calendar 2003 softened somewhat towards the end of the fiscal year and it was largely at these lower price levels that forward export sales for the first quarter of fiscal 2004 were made. As we anticipated, ferrous prices rebounded and, in September, even surpassed the early year high but at a time when the US dollar had weakened against many major currencies including sterling and

the Australian and New Zealand dollars. Any further weakening in the US dollar, coupled with firming ocean freight rates, would have a material influence on the Company's profit performance in fiscal 2004, as could ever increasing competition to secure raw material in some operating regions. While the Company remains confident that strong demand and an increased focus on remaining a low cost operator will result in another sound financial performance in 2004, these factors may prevent the record fiscal 2003 earnings from being exceeded in fiscal 2004.

Paul Mazoudier

Chairman

Jeremy Sutcliffe

Group Chief Executive

Jeremy Sutcliffe

Q. You have just completed your first full year as Group Chief Executive. How did you find it?

A. The year was obviously highly successful from a financial perspective and I will talk more about that later. From a personal perspective, holding the position of Group Chief Executive presented a range of challenges, some expected and some less so. Managing a business which operates in a dynamic market place, across three continents, is in itself challenging, but the strength and depth of our regional management teams made this much easier. Closer to home, constant interaction with investors, analysts and the market as a whole has been stimulating but, more importantly, productive. The board of directors has remained highly supportive throughout the year, which has been a great help.

Q. The result for 2003 represented a record for Sims Group. You were obviously very satisfied with that?

A. It was a great result, but one which was clearly supported by favourable market conditions and a reasonably weak Australian dollar. The latter assisted both our Australian earnings and the translation of our overseas earnings into Australian dollars. Internal factors, however, also contributed significantly. These included management's focus on achieving our strategic goals in terms of volumes and margins, an emphasis on shredder efficiencies and non ferrous recoveries, the decision to dispose of our underperforming non-core Southern Californian business, and the enhancement of our human resources. Accordingly, all our employees should feel that they made a real difference to the year's results.

Q. Sims Group went through a re-branding exercise during the year. What was the reason for that, and were you pleased with the outcome?

A. Two major factors influenced the decision to change our name and re-brand the Group. So far as the name is concerned, as we develop the scope of our business, it is no longer appropriate to retain the word "metal" in our corporate name. The Simsmetal name lives on as our core division, but we believe our new divisions, including Sims Recycling Solutions, can be developed more successfully under the new Sims Group Limited banner.

Turning to the logo, with over 60% of our earnings now generated offshore, I felt it was better to create a new brand and image not linked specifically to Australia via a somewhat outdated logo. I am delighted with our new logo, featured prominently throughout this report.

Q. Sims Group was debt free at 30 June. What are your objectives re acquisitions, capital management and the like moving forward?

A. Our strong profit performance and cash flow for the year has certainly provided us with a healthy balance sheet. When asked by investors

and analysts what we intend to do with the cash on hand, I tell them that "I am impatient for growth, but patient enough to wait for the right opportunity". There are businesses we could buy, but our acquisition criteria is quite specific. Going forward, our strategic objective of growing our core metals recycling business internationally remains unaltered. If opportunities of sufficient size do not arise to utilise surplus cash generated, then we will consider the capital management strategies that are open to us.

Q. What were the major developments in the new Recycling Solutions division during the last year?

A. Our new Recycling Solutions division made commendable progress during the year with the successful commissioning of our first fridge recycling plant in the UK. The Company subsequently committed to the installation of a second fridge plant in the UK which is scheduled for commissioning in October 2003. Additional UK investments were also made in an electrical equipment recycling facility and a tyre recycling plant, both also to be commissioned in October 2003. Further, we recently announced the opening of our "E-Waste Breakdown" facility in the US and continue to lobby government and regulatory bodies in Australia in relation to similar initiatives.

Q. Tell us about some of the human resources initiatives undertaken during the past year?

A. The success of Sims rests, to a significant extent, on the quality of its people. By having a dedicated HR executive focusing on people development, we are ensuring that the skills possessed by the current team are enhanced and passed on to younger or new employees to ensure the Company remains in good hands in the future. Our performance appraisal system has been re-vamped, and a new management executive training program introduced.

Q. There was a commendable improvement in Sims Group's safety statistics year-on-year. What has been the reason for that?

A. Safety is something we can never be complacent about and until we reach and maintain "zero harm" for all our employees, I won't be satisfied with our safety performance. Having said that, this year's results were encouraging and our Lost Time Injury Frequency Rate was well below the Australian manufacturing industry average.

Q. Corporate Governance has been an important agenda item for boards of directors this year. How did Sims Group respond to the debate?

A. As with most companies, Corporate Governance took up a significant amount of directors' time this year. I think that Sims has been proactive in adopting the ASX Recommendations early and our position is clearly set out on the Company's website. Through the website and this annual report, the Company maintains a high degree of disclosure on a range of matters, including executive remuneration and reward. A Code of Conduct for all our employees has also been formalised and promoted throughout the Group.

Q. Finally, how do you see the state of the global steel industry, and consequently demand for Sims' ferrous products, in the year ahead?

A. Global steel production has increased over 8% in the first half of calendar 2003, with particularly strong growth recorded in the regions we sell to such as India, Turkey, and especially, China. The growth in the Chinese economy as a whole, and its demand for manufacturing raw materials and semi-finished products, gives me great confidence that demand for our secondary raw materials will be very strong in the current financial year.

SIMS GROUP AT GLANCE

SIMS METAL

Sims Metal is one of the largest global metal recyclers with operations in Australasia, the UK and the USA. As a buyer, processor and supplier of all grades of secondary ferrous and non ferrous metals, Sims Metal provides its industrial customers around the world with a reliable and valuable raw materials

SIMS MANUFACTURING

Sims Manufacturing consists of Sims' secondary aluminium and plastics recycling operations in Australia as well as its commodities trading operations. It also includes Sims' interests in Consolidated Extrusions an Australian copper and brass alloy extrusions joint venture and Australian Refrined Alloys. Australian Refrined Alloys

SIMS ALUMINIUM

Part of Sims Manufacturing, Sims Aluminium is Australia's largest producer of specification grade aluminium alloy, primarily for the Australasian automotive industry. It also provides a number of innovative recycling solutions including the recovery of aluminium and salt from salt brine. Sims Aluminium has a fully produced aluminium production line to the supply of aluminium alloy to the

SIMS ENERGY

Sims Energy is the energy division of Sims Group and comprises Sims equity interest in LMS, a wholly owned and operated Australian company. LMS is a specialist renewable energy company that continues to research, install and develop wind, solar, biomass, geothermal and hydro systems

SIMS INTERNATIONAL

Sims International handles the international trading and brokerage of ferrous and non ferrous metals on behalf of Sims Group. Supported by an international trading network and representative offices in China, Malaysia and India, Sims International is a key

SIMS | STEEL

Sims Steel is the steel distribution arm of Sims Group and has operations in Australasia, Papua New Guinea and the USA. Sims Steel sells a wide range of steel products, including pipe, RHS, plate, structurals, merchant bar and construction materials, to a broad range of customers.

SIMS | PLASTICS

Part of Sims Manufacturing, Sims Plastics operates principally in Australia and recycles high value plastic polymers including post consumer plastics, plastics from the automotive industry and environmentally sensitive plastics such as agricultural sheeting.

SIMS | INDUSTRIAL

Sims Industrial is the global industrial services division of Sims Group and provides industrial services, including charge blending, furnace loading and stockpile management services to electric arc steel plants and other clients.

SIMS | RECYCLING SOLUTIONS

Sims Recycling Solutions is the division of Sims Group created specifically to provide, in response to increasing social and political pressures, environmentally responsible solutions to the disposal of post consumer products. It offers fee for service business opportunities in the recycling of refrigerators, electrical and electronic equipment, vehicles and tyres.

AUSTRALIA & NEW ZEALAND

Stemming from a strong economy and realigned business strategy, the metal recycling business in **Australia** experienced substantial volume increases during fiscal 2003, up 15% on the previous year and further consolidating Sims' position as the largest recycler in Australia, New Zealand and Papua New Guinea.

New operating yards were opened on the Gold Coast and in Gladstone, Queensland to harvest the metal discarded by the growing population in these regions.

Operationally, higher utilisation rates of Sims' processing plants was instrumental in holding unit operating costs to around fiscal 2002 levels. Continual capital investment in "state of the art" downstream processing plants, combined with shredder upgrades in WA, QLD and NSW, lifted metal recovery yields by 13%, with further gains to be realised during the coming year. In the export States, major efficiencies were gained in load-out rates which resulted in considerable savings in export freight costs.

On-going focus on major safety issues utilising risk assessments and observation behavioural audits, together with in-house safety and environment auditing and training, led to a 12% reduction in lost time injuries compared to the previous year. The LTIFR of 6.5 compared favourably to the Australian manufacturing industry average of 15.

In **New Zealand**, Sims Pacific Metals (the Group's 50/50 joint venture with Fletcher Building Limited) performed strongly, with overall physical volumes marginally ahead of the previous year. Even allowing for the recent power crisis which affected production in the last quarter, demand for ferrous scrap from the Pacific Steel mini mill was firm.

In the **South Pacific Region**, Sims operates in Papua New Guinea and also sources scrap throughout the islands in the geographic area. During the year, PNG Recycling commenced operations at the OK Tedi mine site, providing a comprehensive range of recycling services, as well as scrap collection, to the mine owner. This has led to material increases in ferrous volumes handled in PNG and will allow shipment of the first bulk ferrous cargo from the region in the first quarter of fiscal 2004.

UNITED STATES & CANADA

The **United States** operations continued to improve throughout the year, resulting in a 110% increase in PBIT compared to the previous fiscal year. The strong global demand for ferrous raw material, an improvement in productivity and recovery levels, and a significant reduction in non ferrous operating costs all contributed to this improved result.

the year commencing 1 January 2003. Each of the Group's divisions reported strong growth and profitability despite the lack of any significant recovery in the domestic US economy. Birmingham Steel, a major customer of Sims, successfully completed its reorganisation under the US Bankruptcy Code in December 2002, culminating in its operations being acquired by Nucor. The continued operation under new stewardship has had no adverse effect on Sims' operations.

The commitment to workplace safety in the North America operations was evidenced by the recording of only four lost time injuries from almost one million man-hours.

In **Canada**, Richmond Steel Recycling (the Group's 50/50 joint venture with Nucor Corp) experienced continued growth throughout the year. Volumes handled increased by more than 13% over the previous year. Strong demand for its ferrous raw material and an improvement in non ferrous recoveries helped this operation achieve a record result.

UNITED KINGDOM

The year commencing 1 January 2003 was one of the Group's most successful. New contracts, however, the flexibility of the UK business was well demonstrated by the switch of the tonnage previously sold domestically, to the Group's export facilities at Newport and Avonmouth. Assisted by a strong export market, the balance of the business shifted dramatically during the year, with export sales representing over 70% of ferrous tonnage sold. The re-emergence of the Turkish market was the most significant development in the export business, representing over 40% of UK export sales.

During the year, a number of significant capital projects received Sims Group board approval. The two most notable were for a new replacement shredder at the South Wales operation and an export facility facility at Newport, for which the Group will receive 50% grant funding. Work on both these projects has commenced, with completion dates set for mid 2004.

The year saw further improvements in shredder efficiency with average monthly shredder productivity up 7% on last year. The implementation of a new maintenance and engineering system contributed to this improvement and further upgrading continues.

Demonstrating that health and safety continue to be a priority for the UK business, lost time injuries were down 8% on the previous year.

The recent re-opening of both the South Wales Alpha steel mill and the former ASW mill, now owned by the Spanish steel maker Celsa, has left the UK operation well positioned to take advantage of these business opportunities.

RECYCLING SOLUTIONS

UNITED KINGDOM

Sims Recycling Solutions (SRS) in the UK was established as a division of Sims plc in 1997, as an extension of the services provided by the company, arising from legislative change in areas of Sims' core competences. Changes in legislation are being driven by social and political pressure upon manufacturers of consumer goods who must in the near future take responsibility for the stewardship of their products once those products have reached the end of their useful lives. Examples of such legislation in Europe include the End of Life Vehicle (ELV) Directive, the Waste from Electrical and Electronic Equipment (WEEE) Directive, the Ozone Depleting Substances Regulations and the Landfill Directive.

SRS, one year on from its formation, has implemented a strategy to make best use of its resources in order to meet these challenges and opportunities. During the last financial year, SRS invested further in its refrigerator recycling program in Newport, UK and will, by October 2003, have the largest single refrigerator destruction facility, capable of processing over 600,000 fridges annually and recovering CFCs to the world's highest standards. SRS will also commission a dedicated commercial fridge manufacturing centre at the same site.

A common feature of the new producer responsibility legislation (particularly the forthcoming implementation of the ELV and WEEE Directives in 2004 and 2005 respectively) is the focus on the re-use, recovery and recycling of many types of materials, including plastics, glass, rubber and other non-metallic fractions. Here too, SRS is responding by researching and developing new methods of material separation as well as investigating new markets for recovered materials.

Graham Davy
Managing Director,

Sims Recycling Solutions
Europe & North America

Peter Natchae
General Manager,
Recycling Solutions
Australia

Andy Mason
Manager, Sims
Recycling Solutions
America

SRS has employed expertise in these specific areas and committed research capital to push forward its technical programme in the WEEE area. A dedicated research line at SRS' UK Long Marston Centre of Recycling Excellence is under development to focus on the new methods required for effective materials separation. In particular, SRS is studying ways to effectively separate the constituent materials within computer monitors and TV sets, a growing and problematic waste stream. Early results are extremely encouraging, but more research is required before a comprehensive solution can be offered.

Meanwhile, SRS' investment in a commercial WEEE recycling line is now in operation in Manchester, and is giving much useful product cost and material breakdown information for the benefit of Sims and its partners in the manufacturing and local government sectors.

The ELV Directive calls for end of life motor vehicles to be de-polluted in licensed facilities prior to processing, and imposes minimum recyclable material recovery levels. Although vehicle manufacturers will eventually be held responsible for ensuring disposal in accordance with the Directive, in the short term a vehicle's last owner will face the financial burden. This has presented another opportunity for SRS, which has developed different scale de-pollution equipment to study the most effective handling methods across its facilities. SRS's joint venture internet based data capture system, "Elv-is", is designed to assist manufacturers in fulfilling their reporting obligations under the Directive and is another example of how SRS is adding value in the "fee for service" sector.

The disposal of whole tyres in landfill was, during 2003, banned across the UK, and shredded tyres will be completely banned from landfill by 2006. Again, this is proving to be an opportunity for SRS which will commission a tyre recycling process in Manchester in October 2003.

Through all of these initiatives, the profile of SRS has been raised across many sectors and SRS is becoming the partner of choice for many stakeholders in order to deliver best value solutions for obligated organisations.

UNITED STATES

In August 2003, SRS opened its first recycling solutions operation in the United States. The 30,000 square feet facility in California will be a dedicated e-waste demanufacturing facility where metals, plastics and CRT glass will be recovered, sorted and traded into the commodity markets. The operating cost data and marketing information gathered will prove extremely useful in the offering of recycling solutions to manufacturers.

AUSTRALIA

Established in April 2002, SRS Australia will work closely with manufacturers, importers and government at all levels to explore opportunities and offer services for the recycling of car tyres, computers and other complex waste streams where the costs of collection and recycling typically exceed the value of the recovered materials.

Building on the expertise and experience gained from Sims' European and North American operations, SRS is working with Australian producers of electronic and electrical equipment to deliver practical and commercially viable recycling solutions for products that have reached their end of life.

Working with EcoRecycle, SRS in conjunction with Sims Plastics established a silage processing plant during the year in Victoria. This facility recycles farm plastics which until recently were often burned. SRS is now extending this initiative into NSW, working closely with Resource NSW. Together with Ford Australia, and supported by APRAA and Poly Pacific, a six months trial is being undertaken in Victoria to recycle bumper bars from cars, further increasing the recyclability of motor vehicles and reducing waste. Talks are well underway to extend this initiative into NSW.

Kumar Radhakrishnan
General Manager,
Sims International

Consumption of steel and non ferrous metals in most of Asia and, particularly, in China grew strongly during the year. Meanwhile, the global supply and demand equilibrium for most secondary metals fluctuated, with supply of some commodities remaining tighter than others.

These volatile conditions presented Sims International with a number of opportunities. Its strategically located offices in China, S.E. Asia and India performed well and continued to add value through the monitoring and prompt identification of markets for the various commodities that Sims Group trades in. In particular, third country brokerage activities improved, and a strategy of forging partnerships with selective suppliers in markets with large

INTERNATIONAL

scrap arisings has proved successful and mutually beneficial. While the projected growth rates of many Asian economies are expected to be lower compared to their recent historical averages, a number of initiatives to develop new markets in the region, as well as to identify new supply sources globally, are being aggressively pursued. Sims International's involvement in trading complementary products and its strengths in finance, logistics and most other aspects of the supply chain has been a source of value addition to the Group as well as its customers.

The establishment in Sydney, since year end, of a centralised marketing entity ("CME") under Sims International to market all of the Group's non ferrous products has been well received by customers and employees alike. The CME will enable Sims Group to aggregate resources and leverage off its position in the market place. At a time when supply conditions are extremely tight and unpredictable, customers are also likely to benefit from enhanced consistency and reliability of supply.

STEEL

Sims Steel, the steel distribution arm of Sims Group, continued to grow its sales volumes and pursue the aggressive implementation of its three year business plan by expanding operations during the year to new warehouses distribution centres in China, Australia and

DISTRIBUTOIN

By leveraging the strong relationships that Sims Group as a major raw material supplier enjoys with steel mills throughout Asia, Sims Steel is sourcing quality product at competitive prices to offer to its Australian customers based on the highest quality security of supply.

There has been a continued increase in the steel supply chain

John Falzon
Managing Director,
Landfill Management Services

E N E R G Y

LMS continued to sell emission reduction units from the destruction of methane from landfills to BP Australia Limited, and is the only company in Australia to successfully develop and implement the technology required.

During the year, the Queensland Premier, Mr Peter Beattie and the Australian Greenhouse Office officiated at the first anniversary of the ReOrganic Energy Swanbank operation. The project is now generating over 20,000 MWh per year of renewable energy and continues to be the pinnacle of its type throughout the world.

In late 2002, LMS established an energy group to develop power generating opportunities from established gas collection and flaring facilities that had reached a mature stage of development. The group comprises professionals with vast experience in delivering power generating facilities in areas of landfill gas, coal seam methane gas and remote area mining operations. LMS is currently working on several projects that have a total electrical export capacity of approximately 80,000 MWh and are expected to come online by the end of calendar year 2004. The projects are being developed throughout Australia and once completed will provide a platform for LMS to contribute to the renewable energy power generation industry.

LMS is committed to investigating alternatives for power generation and sustainability, and will continue to monitor the development of renewable energy initiatives in Australia and internationally.

Throughout the year, Landfill Management Services ("LMS") continued to successfully implement its growth strategy, securing a number of key strategic projects in Australia, and doubling its employee base. LMS developed its long term resources further by significantly increasing renewable energy reserves to over 4,000,000 MWh and achieved record turnover.

LMS maintained an impeccable safety and environmental record and continues to develop processes and systems to ensure these remain a cornerstone of the company's principles.

At year end, LMS managed and operated the combustion / utilisation of approximately 75,000,000 m³/year of landfill gas from over 25 sites throughout Australia and Asia. This is, per annum, equivalent to the removal of 153,000 cars from the road, or the reduction of 1,700,000 barrels of oil, or the plantation of 65,000 hectares of trees.

An exciting project commenced during the year was the construction by LMS of a bio-gas co-generation facility in Brisbane, which will be completed by the end of calendar 2003.

Doug McLean
General Manager,
Manufacturing

M A N U F A C T U R I N G

ALUMINIUM

Sims Aluminium completed the final stages of its rationalisation plans during the year. The company closed its aluminium dross processing plant in Sydney and smelter in Geelong. Dross previously processed at these locations is now treated at the Melbourne secondary aluminium smelter.

These closures coincided with the installation in Melbourne of a new "state of the art" tilting rotary furnace, the largest and most technically advanced of its type in Australia. This consolidation and investment in new technology will not only increase production capacity and improve operating efficiencies, but will also have positive spin-offs in the areas of energy consumption, waste reduction, safety and the environment.

Despite significant impairment to production during the project installation period, output increased by 10% over the previous year, while sales, buoyed by strong domestic demand from the automotive industry, increased by 12%. New agreements were finalised with Toyota for the supply of molten aluminium to its Altona production facility which is to be used in the production of Toyota's new all aluminium engine block.

The company's salt slag recycling operation in Geelong also increased output during the year. The current challenge for this operation is to recycle, through internal expertise and in partnership with government and industry, 100% of the salt slag waste generated from Australia's aluminium smelting industry.

The division achieved an 85% reduction in lost time injuries year-on-year.

PLASTICS

With plastic recycling facilities in both Melbourne and Sydney, Sims Plastics focused on restructuring and improving its manufacturing processes during the year to further improve the "whole of life cycle" value of certain plastics previously lost to landfill.

The Melbourne operation relocated to modern facilities and installed specialised new production equipment. This has improved

efficiencies and productivity and positioned Sims Plastics to recycle a wider range of plastics such as agricultural plastic film and silage collected from rural Victoria, a previously lost resource.

Several other new initiatives are underway to assist both government and industry in finding economical and sustainable solutions in the recycling of both post-consumer and post-industrial waste plastic.

The Sydney operation achieved a creditable five years without a lost time injury.

AUSTRALIAN JOINT VENTURES

Output from the **Australian Refined Alloys** secondary lead joint venture (50/50 with Pasminco Limited) was marginally below plan at 36,473 tonnes, with record operational performance in Sydney offset by below plan output in Melbourne.

In the market place, the shift in demand by the battery industry towards value added calcium lead alloys continued, with a corresponding increase in refining and alloying. Despite this, the impact of a temporary closure of the Melbourne plant through a shortage of feed material, together with a downturn in metal prices and unfavourable exchange rates, combined to significantly reduce earnings compared to the previous year.

The commitment towards structured, behaviour based health and safety programs continued.

Environmental performance received a strong focus, with improvements in stability at both plants.

The operations of **Consolidated Extrusions** (Sims 33.3% interest with Crane Group Limited the balance) experienced a period of intense structural change and reorganisation contributing to a lower than expected profit, down marginally on the previous year.

Sales increased 13% primarily due to the acquisition of the brass extrusion business from MCK Pacific. Whilst this acquisition opened opportunities in new markets, particularly those for complex sections and welding rod, the domestic market remained competitive with the strengthening Australian dollar providing opportunities for imported products to pressure margins.

The manufacturing operations faced a challenging year of restructure and integration aimed at improving delivery performance and product quality. The 3,000-tonne UBE press was transferred from Maidstone, Victoria to Ingleburn, NSW and the MCK wire manufacturing operations were transferred from New Plymouth, NZ to Ingleburn.

SAFETY

ENVIRONMENT

Sims Group remains totally committed to supporting a safety culture which continually embraces best practice techniques and systems. This is reflected in the consistent reduction in Sims' global LTFR from 21.2 in F2001 to 14.4 in F2002 and to 10.8 in F2003.

The use of observation safety techniques throughout the organisation includes regular interaction between all levels of line management and employees. All divisions have a comprehensive safety plan which includes a training program, audit protocols, regular safety committee meetings, updating of safe work procedures and regular use of toolbox talk type lectures.

Safety training is ongoing and incorporates the use of safety and induction videos and a comprehensive manual. In Australia ANZ Standard 4800 is followed and a national syllabus has been created for use by other safety professionals. Australia is a member of

the schedule is reviewed and updated regularly. The holding of an annual risk and safety conference has been extended with individual regions having introduced a similar local conference to exchange ideas and further improve systems and safety culture.

During the year, Sims Group continued to develop and apply its integrated environmental management system across all its global operations. This system is built around the ISO 9000 series as a minimum, with many operations having achieved compliance with the ISO 14000 series, the highest such standard in the world.

With formal reporting systems that include incident reporting, environmental auditing systems integrated with operational performance assessments and individual key performance indicators, the system is directly linked to management improvement and capital expenditure plans. While the system is administered and monitored through a comprehensive functional management structure, providing formal links from the board of directors to its subcommittee and the Group Environmental Manager through to all levels of management, staff and contractors, the well defined line management responsibilities for environmental matters forms an additional and essential part of the environmental management matrix.

The Company continues to hold a necessary environmental approvals and operating licences, and works cooperatively with environmental authorities at all levels including agencies for sustainable development such as Environment Australia, Ecopack Australia and Resource NSW. The Company's active approach to environmental issues includes such as the Australian Industry Group's Australian Environmental Awards Program.

PEOPLE TRAINING FINANCIAL SERVICES

Director of ING Australia Holdings Limited, ING Management Limited, ING Bank (Australia) Limited and Qven Limited. Chairman of Wenona Foundation Limited. Principal Winstar Partnership Limited. He is a Chartered Accountant and an Associate of the Securities Institute of Australia.

ROSS CUNNINGHAM B.Sc.

(Metallurgy), MBA (age 58) - 53,508 options

Director since 1984. Member Finance & Investment Committee and Disclosure Committee. Fellow of the Australian Institute of Company Directors and Member of the Financial Executives Institute of Australia. Joined the Company in 1967 and has held various senior positions in Australia and South East Asia including General Manager NSW and General Manager Finance & Administration. Is currently Executive Director Group Finance and Strategy. Director of other Sims Group Limited subsidiaries and associated companies.

The board of the Company considers that, as at 30 June 2003, the Company was in compliance in all material respects with the ASX Corporate Governance Council's Principles of Good Corporate Governance and Best Practice Recommendations (March 2003) (the "ASX Recommendations").

- be free from any interest and any business or other relationship which could, or could reasonably be perceived to, materially interfere with the director's ability to act in the best interests of the Company.

Materiality for the purposes of these principles is determined on both quantitative and qualitative bases. An amount of over 5% of annual turnover of Sims Group or 5% of the individual director's net worth is considered material. In addition, a transaction of any amount, or a relationship, is deemed material if knowledge of it affects the shareholders' understanding of the director's performance.

Principle 1. Lay solid foundations for management and oversight

The Company has adopted a Board Charter which formalises the functions reserved to the board and those delegated to management. A copy of this document is available for viewing by visiting the home page of the Company's website at www.sims-group.com, clicking on 'Governance' and then 'Board Charter'.

Principle 2. Structure the board to add value

The board has adopted specific principles in relation to directors' independence. These state that to be deemed independent, a director must be a non-executive director (ie not be a member of management) and:

- not be a substantial shareholder of the Company or an officer of, or otherwise associated directly with, a substantial shareholder of the Company;
- within the last three years not been employed in an executive capacity by the Company or a controlled entity, or been a director after ceasing to hold any such employment;
- within the last three years not been a principal of a material professional adviser or a material consultant to the Company or a controlled entity, or an employee materially associated with the service provided;
- not been a material supplier or customer of the Company or a controlled entity, or an officer of or otherwise associated directly or indirectly with a material supplier or customer;
- must have no material contractual relationship with the Company or a controlled entity other than as a director of the Company;
- not served on the board for a period which could, or could reasonably be perceived to, materially interfere with the director's ability to act in the best interests of the Company;

Independent directors comprise a majority of the board. The Chairperson, Mr Paul Mazoudier, is an independent director. The roles of Chairperson and Group Chief Executive are not exercised by the same individual. Details of the members of the board, their experience, expertise, qualifications, term of office and independent status are set out in the Directors' Report on pages 20 and 21.

Directors have the right, in connection with their duties and responsibilities, to seek independent advice at the Company's expense. Prior written approval of the Chairperson is required, which will not be unreasonably withheld.

The board has established a Nomination Committee. The names of Nomination Committee members and their attendance at Nomination Committee meetings are set out in the Directors' Report on page 27. The Nomination Committee has adopted a charter. A copy of this document is available at www.sims-group.com, clicking on 'Governance' and then 'Nomination Committee Charter'. A description of the board's procedures for the selection and appointment of new directors to the board and the Nomination Committee's policy on the appointment of directors is available at www.sims-group.com, clicking on 'Governance' and then 'New Directors'.

Principle 3. Promote ethical and responsible decision-making and

Principle 10. Recognise the legitimate interests of stakeholders

The Company has adopted a Code of Conduct and a policy on dealing in Sims Group securities. A copy of these documents is available at www.sims-group.com, clicking on 'Governance' and then 'Code of Conduct' and 'Securities Trading Policy' respectively.

C O R P O R A T E G O V E R N A N C E

The board has established a Finance & Investment ("F & I") Committee, which operates in accordance with its charter. The names of F & I Committee members and their attendance at F & I Committee meetings are set out in the Directors' Report on page 27.

Principle 4. Safeguard integrity in financial reporting

The Group Chief Executive and the Executive Director Group Finance & Strategy have stated in writing to the board in respect of the financial year ended 30 June 2003 that the Company's financial reports present a true and fair view, in all material respects, of the Company's financial condition and operational results and are in accordance with relevant accounting standards.

The board has established an Audit & Compliance ("Audit") Committee. The names of Audit Committee members and their qualifications and attendance at Audit Committee meetings are set out in the Directors' Report on pages 20, 21 and 27. All members of the Audit Committee are independent non-executive directors.

The Audit Committee has adopted a charter and the Company has adopted a policy and procedures for the selection and appointment of the external auditor, and for the rotation of external audit engagement partners. A copy of these documents is available at www.sims-group.com, clicking on 'Governance' and then 'Audit Committee Charter' and 'External Auditors' respectively.

Principle 5. Make timely and balanced disclosure

The Company has adopted a Market Disclosure Policy and procedures for compliance. A copy of these documents is available at www.sims-group.com, clicking on 'Governance' and then 'Market Disclosure Policy'.

The board has established a Disclosure Committee, which operates in accordance with its charter. The names of Disclosure Committee members (other than the Company Secretary) and their attendance at Disclosure Committee meetings are set out in the Directors' Report on page 27.

Principle 6. Respect the rights of shareholders

The Company has adopted a statement on communications with shareholders. A copy of this document is available at www.sims-group.com, clicking on 'Governance' and then 'Shareholders Communication'.

Principle 7. Recognise and manage risk

The Company has adopted a Risk Management Policy and a statement on internal compliance and control systems. A copy of these documents is available at www.sims-group.com, clicking on 'Governance' and then 'Risk Mgt Policy & Internal Control'.

The board has established an Environmental, Occupational Health & Safety ("EOHS") Committee, which operates in accordance with its charter. The names of EOHS Committee members and their attendance at EOHS Committee meetings are set out in the Directors' Report on page 27.

Principle 8. Encourage enhanced performance

The Company has adopted a statement describing the performance evaluation process of the board, its committees, individual directors and key executives. A copy of this document is available at www.sims-group.com, clicking on 'Governance' and then 'Performance Evaluation Process'.

A performance evaluation of the board and its members will be carried out during fiscal 2004.

Principle 9. Remunerate fairly and responsibly

The board has established a Remuneration Committee. The names of Remuneration Committee members and their attendance at Remuneration Committee meetings are set out in the Directors' Report on page 27.

The Remuneration Committee has adopted a charter. A copy of this document is available at www.sims-group.com, clicking on 'Governance' and then 'Remuneration Committee Charter'.

Information on the Company's remuneration policies and on its retirement benefits scheme for non-executive directors is set out in the Directors' Report on pages 27 and 28.

D I R E C T O R S ' REPORT

for the year ended 30 June 2003

Your directors present their report on the consolidated entity consisting of Sims Group Limited and the entities it controlled at the end of, or during, the year ended 30 June 2003.

THE DIRECTORS

The persons who were directors of Sims Group Limited (the "Company") during the whole of the financial year and up to the date of this report are detailed on pages 20 and 21 of this annual report.

PRINCIPAL ACTIVITIES OF THE CONSOLIDATED ENTITY

Details of the principal activities of the consolidated entity during the year are addressed in the Chairman and Group Chief Executive's Report and in the notes to the financial statements.

TRADING RESULTS

The consolidated net profit of the consolidated entity for the year was \$75.042 million.

DIVIDENDS

The fiscal 2002 fully franked final dividend of 19 cents per ordinary share referred to in the directors' report dated 22 August 2002 was paid on 11 October 2002. A partly franked (80%) interim dividend of 23 cents per ordinary share for fiscal 2003 was paid on 11 April 2003 and a partly franked (68%) final dividend of 31 cents per share will be paid on 10 October 2003.

STATE OF AFFAIRS

The directors are not aware of any significant change in the state of affairs of the Company during the financial year other than as set out in the Chairman and Group Chief Executive's Report.

SUBSEQUENT EVENTS

The directors are not aware of any matter or circumstance that has arisen since the end of the financial year which will significantly affect, or may significantly affect, the operations of the consolidated entity, the results of those operations or the state of affairs of the consolidated entity in subsequent financial years.

LIKELY DEVELOPMENTS

Information as to the likely developments in the operations of the consolidated entity is set out in the Chairman and Group Chief Executive's Report.

ENVIRONMENTAL REGULATION

The Company has licences and consents in place at each of its operating sites as prescribed by environmental laws and regulations that apply in each respective location. More specific details on environmental practices are set out on page 18 of this annual report.

DIRECTORS AND THEIR INTERESTS AND BENEFITS

The names of the directors of the Company in office at the date of this report together with their qualifications and experience and relevant interest in the share capital of the Company or of a related body corporate, are set out on pages 20 and 21 of this annual report.

DIRECTORS' MEETINGS

The number of directors' meetings and meetings of committees of directors held during the financial year and the number of meetings attended by each director were:

* Mr Mazoudier is an ex officio member Audit & Compliance Committee.

** Mr Cunningham resigned as a member of the Audit & Compliance Committee on 30 January 2003.

Environmental, Occupational Health & Safety.

DIRECTORS' AND SENIOR EXECUTIVES' EMOLUMENTS

The Remuneration Committee, consisting of two independent non-executive directors and the Group Chief Executive, advises the board on remuneration policies and practices generally, and makes specific recommendations on remuneration packages and other terms of employment for the executive directors and other senior executives:

Remuneration packages are benchmarked to external market data to ensure competitiveness and set at levels intended to attract and retain executives capable of managing the consolidated entity's diverse global operations and achieving the Company's strategic objectives. Executives are paid a base level of remuneration as salary which is paid monthly. Remuneration packages also generally include superannuation, retirement and termination entitlements, fringe benefits and performance-related incentives.

The Company's remuneration policies are designed to align the pay of executives with the interests of shareholders by including short and long term performance-related incentives. Most senior executives are eligible to participate in such incentive programs. Under the Company's short term incentive ("STI") plan, participating executives (which include the executive directors) may receive a cash bonus payment annually ("STI Bonus"), based upon meeting two criteria. The first criterion is the PBIT return on monthly average control capital employed ("ROCCE") of the executive's business unit or the consolidated entity. The Remuneration Committee determines annually the minimum percentage ROCCE which the executive's business unit or the consolidated entity must achieve in the following year before an executive is eligible to receive a bonus based on this criterion. The second criterion is the achievement by the executive of specified personal priorities which are relevant to meeting the Company's business objectives.

In fiscal 2004, the Group Chief Executive can earn up to 70% of his base remuneration package as an STI Bonus split as to between 28 % to 50%, based on ROCCE of the consolidated entity, and up to 20% based on meeting personal priorities. The Executive Director Group Finance & Strategy can earn up to 60% of his base remuneration package as an STI Bonus split as to between 27% to 48%, based on ROCCE of the consolidated entity, and up to 12% based on meeting personal priorities.

An executive will only be eligible to receive that portion of his or her STI Bonus linked to meeting his or her personal priorities if the consolidated entity achieves its cost of capital in a particular financial year (12% for fiscal 2004). An executive will not be eligible to receive any form of STI Bonus if he or she does not obtain at least an average "achieve" rating in his or her personal priorities for that particular financial year.

Under the Company's long term incentive ("LTI") plan, participating executives (which include the executive directors) are eligible to receive cash payments if the average annual growth in the diluted earnings per share of the Company ("EPS

DIRECTORS' REPORT

for the year ended 30 June 2003

Growth") over rolling three year periods is between 5 and 10% per annum compound. The cash payment is pro-rated between 50% payment on achieving 5% EPS Growth up to 100% payment on achieving 10% EPS Growth. There is no payment if less than 5% EPS Growth is achieved. A cash payment under the LTI plan is calculated based on a pre determined percentage, depending on the seniority of the executive, of the executive's base remuneration (as defined in the LTI Plan). For example, the Group Chief Executive and the Executive Director Group Finance & Strategy will be entitled to receive, at the end of a rolling three year period, a cash payment under the LTI plan equivalent to 50% and 30% respectively of their base remuneration package if 10% EPS growth has been achieved during that relevant period. The LTI Plan was introduced at the commencement of the F2003 financial year, with the initial rolling three year period commencing on 1 July 2002 (the "Initial Period"). A provision of \$500,000 has been made in the financial statements for the estimated cash payment that may be payable to participating executives under the LTI Plan following expiry of the Initial Period in respect of the financial year. No amounts have been included in the emoluments of the executive directors and the other five specified executives of the Company referred to below or in the remuneration of directors and executives in the notes to the financial statements in respect of cash payments that may be paid to those persons pursuant to the LTI Plan.

Grants of shares and options pursuant to Sims Group Limited Group Employee Share and Option Plans were suspended during the previous financial year, and replaced by the LTI Plan. Mr Sutcliffe, the Group Chief Executive, has his own incentive plan and the issue of options pursuant to it were also suspended, by mutual agreement, during the previous financial year, and replaced by the LTI Plan.

Executive remuneration and other terms of employment are reviewed annually by the Remuneration Committee having regard to performance against goals set at the start of the year, relevant comparative information and independent expert advice.

Remuneration and other terms of employment for the Group Chief Executive and certain other senior executives are formalised in service agreements.

Non-executive directors receive an annual fee for their services as determined by the board within the maximum amount approved by the shareholders from time to time. Non-executive directors do not receive additional fees for serving on board committees. On retirement, the directors receive a payment based on their years of service. The amount provided in the financial statements for these retirement benefits at the end of the financial year amounted to \$1,360,000. On 13 June 2003, the board resolved to grandfather the operation of this scheme for existing directors and to not allow new directors to join the scheme. Remuneration of non-executive directors and their terms of office are governed by the Company's constitution and not by contract.

Details of the nature and amount of each element of the emoluments of each director of Sims Group Limited and the other specified executives of Sims Group Limited and the consolidated entity receiving the highest emoluments are set out in the following tables:

Non-executive directors of Sims Group Limited

Name	Base Fee	Superannuation	Total	Accrued retirement allowance
	AS	AS	AS	AS
P K Mazoudier - Chairman	160,000	14,400	174,400	592,000
G N Brunsdon	75,000	6,750	81,750	210,000
A C Copeman	75,000	-	75,000	279,000
J M Feeney	75,000	6,750	81,750	279,000

DIRECTORS REPORT

for the year ended 30 June 2003

Executive directors of Sims Group Limited

Name	Base Salary A\$	Bonus A\$	Superannuation & other benefits A\$	Total A\$
J L Sutcliffe - Group Chief Executive	556,301	519,000	164,417	1,239,718
R B Cunningham - Executive Director Group Finance & Strategy	419,854	328,000	126,146	874,000

Other Executives of Sims Group Limited and the Consolidated Entity

Name	Base Salary A\$	Bonus A\$	Pension/ Superannuation & other benefits A\$	Total A\$
C R Jansen - President - USA	646,407	590,081	140,369	1,376,857
D R McGree - Group Executive General Manager - Australasia	330,613	196,000	104,767	631,380

"Other Executives" are those senior officers involved in setting the strategic direction of the Company and its controlled entities.

SHARE OPTIONS GRANTED TO DIRECTORS AND OTHER EXECUTIVES

No options were issued during or since the end of the financial year to any of the directors or Other Executives of the Company and the consolidated entity referred to above.

SHARES UNDER OPTION

Unissued ordinary shares of Sims Group Limited under option pursuant to the Sims Group Limited Group Employee Option Plan and Mr Sutcliffe's incentive plan (as detailed below) at the date of this report are as follows:

Number	Issue Price of Shares A\$	Expiry Date
70,000	6.54	1 September 2003
53,508	6.46	16 November 2003
10,000	6.39	30 November 2004
193,798	6.75	28 March 2007

193,798 options were issued on 28 February 2002 to Mr Sutcliffe on his appointment as Group Chief Executive of the Company and pursuant to his incentive plan. The number of options granted was determined by dividing an amount equal to 50% of the base remuneration of Mr Sutcliffe by the option value as at the date of the grant. The option value was determined by reference to the so-called Black-Scholes option pricing model. Factors taken into account by that model include the exercise price, the term of the option, the current price and expected price volatility of the underlying share, the expected dividend yield and the risk-free interest rate for the term of the option. The options granted to Mr Sutcliffe are exercisable (subject to vesting under a performance hurdle formula based on the total shareholder return of the Company as measured against an S&P/ASX200 related "peer" group of companies at certain specified times in the future) at any time from 28 February 2005 until 28 March 2007. Mr Sutcliffe is also entitled to 40,014 "phantom options" with the same terms and conditions as the 193,798 options expiring 28 March 2007. The "phantom options" entitle Mr Sutcliffe to receive from the Company a cash payment equivalent to any profit that would have been made by Mr Sutcliffe

DIRECTORS' REPORT

for the year ended 30 June 2003

in respect of the "phantom options", if exercised at any relevant time and the shares arising therefrom contemporaneously sold. The aggregate value of the options and the "phantom options" granted to Mr Sutcliffe were valued at \$325,000 at the date of issue.

Other than the 193,798 options expiring 28 March 2007, the above options are exercisable at any time prior to the expiry date. No option holder has any right under the options to participate in any other share issue of the Company or of any other entity. 2,401,492 ordinary shares of Sims Group Limited were issued during the financial year and up to the date of this report, as a result of the exercise of options issued under the Sims Group Limited Group Employee Option Plan.

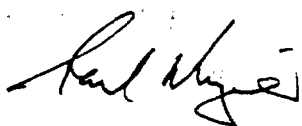

INDEMNIFICATION AND INSURANCE OF OFFICERS

During the year, the Company paid a premium of \$82,606 in respect of a contract insuring all directors and executive officers of the Company (and/or any subsidiary companies in which it holds greater than 50% of the voting shares), including directors in office at the date of this report and those who served on the board during the year, against liabilities that may arise from their positions within the Company and its controlled entities, except where the liabilities arise out of conduct involving a lack of good faith. The directors have not included details of the nature of the liabilities covered as such disclosure is prohibited under the terms of the contract.

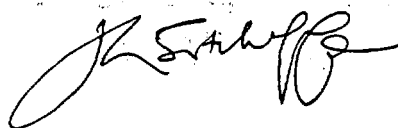

ROUNDING OF AMOUNTS TO NEAREST THOUSAND DOLLARS

The amounts in the financial statements, where appropriate and unless otherwise stated, have been rounded off to the nearest thousand dollars in accordance with ASIC Class Order 98/0100.

For and on behalf of the board:

P K Mazoudier
Chairman

J L Sutcliffe
Group Chief Executive

Sydney 28 August 2003

The above statements of cash flows should be read in conjunction with the accompanying notes.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 30 June 2003

NOTE 1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

This general purpose financial report has been prepared in accordance with Accounting Standards, other authoritative pronouncements of the Australian Accounting Standards Board, Urgent Issues Group Consensus Views and the Corporations Act 2001.

It is prepared in accordance with the historical cost convention, except for certain assets which, as noted, are at valuation. Unless otherwise stated, the accounting policies adopted are consistent with those of the previous year. Comparative information has been reclassified where necessary to ensure comparability with the current reporting period.

a) Principles of consolidation

The consolidated financial statements incorporate the assets and liabilities of all entities controlled by Sims Group Limited (formerly Simsmetal Limited) ("Company" or "parent entity") as at 30 June 2003 and the results of all controlled entities for the year then ended. Sims Group Limited and its controlled entities together are referred to in this financial report as the consolidated entity. The effects of all transactions between entities in the consolidated entity are eliminated in full. Outside equity interests in the results and equity of controlled entities are shown separately in the consolidated statement of financial performance and statement of financial position respectively.

Where control of an entity is obtained during a financial year, its results are included in the consolidated statement of financial performance from the date on which control commences. Where control of an entity ceases during a financial year its results are included for that part of the year during which control existed.

Investments in associates are accounted for in the consolidated financial statements using the equity method. Under this method, the consolidated entity's share of the post acquisition profits or losses of associates is recognised in the consolidated statement of financial performance, and its share of post acquisition movements in reserves is recognised in consolidated reserves. The cumulative post acquisition movements are adjusted against the cost of the investment. Associates are those entities over which the consolidated entity exercises significant influence but not control.

b) Revaluation of non current assets

Subsequent to initial recognition as assets, land and buildings are measured at fair value being the amounts for which the assets could be exchanged between knowledgeable willing parties in an arm's length transaction. Revaluations are made with sufficient regularity to ensure that the carrying amount of each piece of land and each building does not differ materially from its fair value at the reporting date. Annual assessments of the fair values are made by the directors. These are supplemented by independent assessments at least every three years.

Revaluation increments are credited directly to the asset revaluation reserve, except that, to the extent that an increment reverses a revaluation decrement in respect of that class of asset previously recognised as an expense in net profit or loss, the increment is recognised immediately as revenue in net profit or loss.

Revaluation decrements are recognised immediately as expenses in net profit or loss, except that, to the extent that a credit balance exists in the asset revaluation reserve in respect of the same class of assets, they are debited directly to the asset revaluation reserve.

Revaluation increments and decrements are offset against one another within a class of non current assets, but not otherwise.

Potential capital gains tax is not taken into account in determining revaluation amounts unless it is expected that a liability for such tax will crystallise.

Revaluations do not result in the carrying value of land or buildings exceeding their recoverable amount.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 30 June 2003

NOTE 1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)

c) Foreign currency translation

Translations denominated in a foreign currency are converted at the exchange rate at the date of transaction. Foreign currency receivables and payables at balance date are translated at exchange rates at year end. Exchange gains and losses are brought to account in determining the profit or loss for the year. The consolidated entity enters into forward foreign exchange contracts and option contracts to buy and sell specified amounts of foreign currencies in the future at pre-determined exchange rates. These contracts are entered into to hedge future sale and purchase transactions. Exchange gains, losses and costs arising on forward foreign exchange and option contracts entered into as hedges of future transactions are deferred and included in the determination of the amounts at which the transactions are brought to account. The net amounts receivable or payable under the hedging transaction are also recorded in the statement of financial position. Any gains or losses arising on the hedging transaction after the recognition of the hedged purchase or sale are included in the statement of financial performance.

Assets and liabilities of self-sustaining overseas controlled entities (refer note 23) are translated at exchange rates existing at year end, while revenues and expenses are translated at the average rates ruling during the year. Any exchange gain or loss arising on translation is taken directly to a foreign currency translation reserve.

Upon disposal or partial disposal of a self sustaining foreign operation the balance of the foreign currency translation reserve relating to the operation, or the part disposed of, is transferred to retained profits.

d) Inventories

Inventories are valued at the lower of cost and net realisable value. Costs of finished goods and raw materials are determined on a consistent basis using the FIFO basis. Cost comprises direct materials, direct labour and an appropriate proportion of fixed and variable overhead expenditure, the latter being allocated on the basis of normal operating capacity.

e) Depreciation of property, plant and equipment

Property, plant and equipment, other than freehold land, are depreciated over their expected useful life, using reducing balance or straight line methods as appropriate. Leasehold improvements are written off over the period of the lease or expected useful life, whichever is shorter.

The expected useful lives are as follows:

Buildings	25-40 years
Plant and equipment	3-14 years

Profits and losses on disposals of property, plant and equipment are taken into account in determining the profit for the year.

f) Goodwill

Where an entity or operation is acquired, the identifiable net assets acquired are measured at fair value. The excess of the fair value of the cost of acquisition over the fair value of the identifiable net assets acquired, including any liability for restructuring costs, is brought to account at cost and is amortised on a straight line basis over the period of the expected benefit, with a maximum amortisation period of 20 years.

g) Leased non current assets

Leases entered into by the consolidated entity under which all the risks and benefits of ownership are effectively retained by the lessor are classified as operating leases. Operating lease payments are charged to expense over the period of expected benefits.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 30 June 2003

NOTE 1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)

h) Financial assets and liabilities

Unless otherwise stated financial assets and liabilities are carried at net fair value and settled on normal trading terms.

A provision is raised for any doubtful debts based on an ongoing review of all outstanding amounts. Bad debts are written off during the period in which they are identified.

The consolidated entity's exposure to credit risk is generally the carrying amount of financial assets net of any provision for doubtful debts.

Monetary financial assets and liabilities not traded in an organised financial market, being trade debtors, trade accounts payable, accruals and dividends payable, are valued on a cost basis (which approximates net market value).

i) Employee entitlements

The amounts expected to be paid to employees for their pro-rata entitlement to annual leave are accrued annually at expected remuneration rates. A liability for long service leave is recognised, and is measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date.

Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using interest rates on national government guaranteed securities with terms to maturity that match, as closely as possible, the estimated future cash outflows. Employee benefit on costs, including payroll tax, are recognised and included in employee benefit liabilities and costs when the employee benefits to which they relate are recognised as liabilities. Contributions to defined benefit and other employee superannuation plans are charged as an expense as the contributions are paid or become payable.

Liabilities for termination benefits, not in connection with the acquisition of an entity or operation, are recognised when a detailed plan for the terminations has been developed and a valid expectation has been raised in those employees affected that the terminations will be carried out. The liabilities for termination benefits, which are all expected to be settled within 12 months, are recognised in other creditors and measured at the amounts expected to be paid when they are settled.

A liability for employee benefits in the form of bonus plans is recognised in other creditors. This liability is expected to be settled within 12 months and is measured at the amount expected to be paid when it is settled.

Equity based compensation benefits are provided to employees via the Sims Group Limited Group Employee Option Plan and the Sims Group Limited Employee Share Ownership Plan. Information relating to these schemes is set out in note 21(ii). No accounting entries are made in relation to the employee option plan until options are exercised, at which time the amounts receivable from employees are recognised in the statement of financial position as share capital. Amounts lent to employees through the employee share plan are included in receivables and dividends paid on the shares are used to reduce the related loan balance.

j) Revenue recognition

Sales revenue represents revenue earned from the sale of the consolidated entity's products and services, net of returns, trade allowances and duties and taxes paid. Sales revenue is recognised when the goods have been despatched to a customer pursuant to a sales order and associated risks have passed to the carrier or customer. Fees received for recycling refrigerators are brought to account as explained in note 11.

Other revenue includes interest income on short term investments, proceeds on the disposal of property, plant and equipment and in the case of the parent entity, dividends received from controlled entities.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 30 June 2003

NOTE 1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)

k) Income tax

Tax effect accounting procedures are followed whereby the income tax expense in the statement of financial performance is matched with the accounting profit after allowing for permanent differences. The future tax benefit relating to tax losses is not carried forward as an asset unless the benefit is virtually certain of realisation. Income tax on cumulative timing differences is set aside to the deferred income tax or the future income tax benefit accounts at rates which are expected to apply when those timing differences reverse.

No provision has been made for additional taxes which could become payable if certain reserves of the overseas controlled entities were to be distributed as it is not expected that any substantial amount will be distributed from those reserves.

No provisions have been made for any taxes on capital gains which could arise in the event of a sale of non current assets for the amounts at which they are stated in the financial statements as it is not expected that any such liability will arise.

l) Joint ventures

Where the consolidated entity has entered into unincorporated joint ventures, the financial statements include the consolidated entity's proportionate interest in the assets and liabilities of those joint ventures under the relevant statements of financial position headings.

m) Cash flows

For purposes of the statements of cash flows, cash includes deposits at call which are readily convertible to cash on hand and are subject to an insignificant risk of changes in value, net of outstanding bank overdrafts.

n) Earnings per share

Basic earnings per share is determined by dividing the net profit after income tax attributable to members of Sims Group Limited, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year.

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of ordinary shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

o) Dividends

Provision is only made for the amount of any dividend declared, determined or publicly recommended by the directors on or before the end of the financial year but not distributed at balance date.

Change in accounting policy for providing for dividends

The above policy was adopted with effect from 1 July 2002 to comply with AASB 1044 Provisions, Contingent Liabilities and Contingent Assets released in October 2001 and applied to the financial year ended 30 June 2003. In previous years, in addition to providing for the amount of any dividends declared, determined or publicly recommended by the directors on or before the end of the year but not distributed at balance date, provision was made for dividends to be paid out of retained profits at the end of the year where the dividend was proposed, recommended or declared between the end of the year and the completion of the financial report.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 30 June 2003

NOTE 1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)

An adjustment of \$17,148,000 was made against the retained profits at the beginning of the financial year to reverse the amount provided at 30 June 2002 for the proposed final dividend for the year ended on that date that was recommended by the directors between the end of the financial year and the completion of the financial report. This reduced the current liabilities - provisions and total liabilities at the beginning of the year by \$17,148,000 with corresponding increases in net assets, retained profits, total equity and the total dividends provided for or paid during the current financial year.

The restatements of retained profits, total dividends provided for or paid during the financial year and current provisions set out below show the information that would have been disclosed had the new accounting policy always been applied.

	CONSOLIDATED		PARENT ENTITY	
	2003	2002	2003	2002
	\$'000	\$'000	\$'000	\$'000

Restated total dividends provided for or paid during the financial year	38,367	30,430	38,367	30,430
Restatement of current liabilities - provisions (note 14)				
Previously reported carrying amount at the end of the financial year	9,514	27,221	6,503	23,481
Adjustment for change in accounting policy	-	(17,148)	-	(17,148)
Restated carrying amount at the end of the financial year	9,514	10,073	6,503	6,333

p) Recoverable amount of non current assets

The recoverable amount of an asset is the net amount expected to be recovered through the cash inflows and outflows arising from its continued use and subsequent disposal.

Where the carrying amount of a non current asset is greater than its recoverable amount, the asset is written down to its recoverable amount. Where net cash inflows are derived from a group of assets working together, recoverable amount is determined on the basis of the relevant group of assets. The decrement in the carrying amount is recognised as an expense in the net profit or loss in the reporting period in which the recoverable amount write-down occurs.

The expected net cash flows included in determining recoverable amounts of non current assets are not discounted to their present values using a market-determined, risk-adjusted discount rate.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 30 June 2003

NOTE 1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)

q) Acquisition of assets

The purchase method of accounting is used for all acquisitions of assets. Cost is measured as the fair value of the assets given up, shares issued or liabilities undertaken, at the date of acquisition, plus incidental costs directly attributable to the acquisition. Transaction costs arising on the issue of equity instruments are recognised directly in equity.

A liability for restructuring costs is recognised as at the date of acquisition of an entity or part thereof when there is a demonstrable commitment to a restructuring of the acquired entity and a reliable estimate of the amount of the liability can be made.

Goodwill is brought to account on the basis described in note 1(f).

r) Receivables

All trade debtors are recognised at the amounts receivable as they are generally due for settlement no more than 90 days from the date of recognition.

Collectability of trade debtors is reviewed on an ongoing basis. Debts which are known to be uncollectable are written off. A provision for doubtful debts is raised when some doubt as to collection exists.

s) Trade and other creditors

These amounts represent liabilities for goods and services provided to the consolidated entity prior to the end of the financial year and which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition.

t) Interest bearing liabilities

Loans are carried at their principal amounts which represent the present value of future cash flows associated with servicing the debt. Interest is accrued over the period it becomes due and is recorded as part of other creditors.

u) Derivative financial instruments

The consolidated entity enters into forward foreign exchange contracts and interest rate swap agreements.

The accounting for forward foreign exchange contracts is in accordance with note 1(c).

The net amount receivable or payable under interest rate swap agreements is progressively brought to account over the period to settlement. The amount recognised is accounted for as an adjustment to interest and finance charges during the period and included in other debtors or other creditors at each reporting date.

When an interest rate swap is terminated early and the underlying hedged transactions are still expected to occur as designated, the gains or losses arising on the swap upon its early termination continue to be deferred and are progressively brought to account over the period during which the hedged transactions are recognised.

When an interest rate swap is terminated early and the underlying hedged transactions are no longer expected to occur as designated, the gains or losses arising on the swap upon its early termination are recognised in the statement of financial performance as at the date of termination.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 30 June 2003

NOTE 1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)

v) Rounding of amounts

The Company is of a kind referred to in Class Order 98/0100, issued by the Australian Securities and Investments Commission, relating to the "rounding off" of amounts in the financial report. Amounts in the financial report have been rounded off in accordance with that Class Order to the nearest thousand dollars, or in certain cases, to the nearest dollar.

w) Change in accounting policy for translation of foreign currency contracts

An asset or liability arising under a foreign currency contract where the exchange rate for that asset or liability is fixed in that contract is recognised and translated using that fixed exchange rate. The net gain or loss arising from a foreign currency contract which is classified as a hedge is deferred and recognised in the statement of financial position.

The above policy was adopted with effect from 1 July 2002 to comply with AASB 1012 Foreign Currency Translation released in November 2000 and applied to annual reporting periods beginning on or after 1 January 2002. In previous periods, the net gain or loss arising from foreign currency contracts (described above) outstanding at the end of the reporting period was not recognised as an asset or liability in the statement of financial position.

The change in the accounting policy would have resulted in an increase of \$13,029,000 in the consolidated carrying amount of other current assets and \$3,938,000 in the consolidated carrying amount of other non current assets at 30 June 2002, with a corresponding increase in the consolidated current and non current payables of \$13,029,000 and \$3,938,000 respectively. The change had no effect on revenues or expenses in the statement of financial performance.

The restatements of consolidated Other Current and Non-current Assets, Current and Non-current Payables below show the information that would have been disclosed had the new accounting policy always been applied.

	CONSOLIDATED

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 30 June 2003

NOTE 3. PROFIT FROM ORDINARY ACTIVITIES (continued)

	CONSOLIDATED		PARENT ENTITY	
	2003	2002	2003	2002
	\$'000	\$'000	\$'000	\$'000
(iii) Expenses from ordinary activities				
Raw materials and finished goods included in cost of sales	961,255	828,742	427,000	342,164
Freight expense	190,787	157,663	65,433	55,222
Employee benefits expense	142,761	138,590	59,000	46,789
Depreciation and amortisation expense	36,796	38,019	8,398	8,622
Repairs and maintenance expense	51,459	48,158	15,847	11,429
Other expenses from ordinary activities	112,353	134,115	36,250	31,817
	1,495,411	1,345,287	611,928	496,043

NOTE 4. INCOME TAX

(a) The income tax expense for the financial year differs from the amount prima facie calculated on the profit. The differences are reconciled as follows:

Prima facie tax expense on profit from ordinary activities at rates applicable in the countries of source	34,641	22,185	13,032	9,664
Tax effect of permanent differences				
Research and development	-	555	-	-
Non deductible amortisation and depreciation	1,303	1,163	205	70
Capital loss on sale of shares in a controlled entity	-	(445)	-	(445)
Other non deductible expenditure and losses	488	201	399	120
Income tax adjusted for permanent differences	36,432	23,659	13,636	9,409
Utilisation of group tax losses	-	(265)	-	-
(Over)/under provision in prior years	504	(745)	(155)	(794)
Income tax expense	36,936	22,649	13,481	8,615

(b) The directors estimate that the potential future income tax benefit at 30 June 2003 in respect of tax losses not brought to account is:

	1,850	2,020	-	-
--	-------	-------	---	---

The benefit for the tax losses will only be obtained if:

- (i) the consolidated entity derives future assessable income of a nature and of an amount sufficient to enable the benefit from the deductions for the losses to be realised, or
- (ii) the losses are transferred to an eligible entity in the consolidated entity, and
- (iii) the consolidated entity continues to comply with the conditions for deductibility imposed by UK tax legislation, and
- (iv) no changes in tax legislation adversely affect the consolidated entity in realising the benefit from the deductions for the losses.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 30 June 2003

NOTE 4. INCOME TAX (continued)

CONSOLIDATED		PARENT ENTITY	
2003	2002	2003	2002
\$'000	\$'000	\$'000	\$'000

The future income tax benefit shown in note 9 includes tax losses of:

-	-	-	-
---	---	---	---

(c) Tax consolidation legislation

Sims Group Limited and its wholly-owned Australian subsidiaries have decided to implement the tax consolidation legislation as of 1 July 2003. The Australian Taxation Office has not yet been notified of this decision. The entities have entered into a tax sharing agreement.

As a consequence, Sims Group Limited, as the head entity in the tax consolidated group, will recognise current and deferred tax amounts relating to transactions, events and balances of the wholly-owned Australian controlled entities in this group in future financial statements as if those transactions, events and balances were its own, in addition to the current and deferred tax balances arising in relation to its own transaction, events and balances. Amounts receivable or payable under the tax sharing agreement will be recognised separately by Sims Group Limited as tax-related amounts receivable or payable. The impact on the income tax expense and results of Sims Group Limited is unlikely to be material because of the tax sharing agreement. This is not expected to have a material impact on the consolidated assets and liabilities and results.

The financial effect of the implementation of the legislation has not been recognised in the financial statements for the year ended 30 June 2003.

NOTE 5. RECEIVABLES

	CONSOLIDATED		PARENT ENTITY	
	2003	2002	2003	2002
	\$'000	\$'000	\$'000	\$'000
Current				
Trade debtors	121,549	145,451	35,607	33,902
Less: provision for doubtful debts	(271)	(4,401)	(174)	(231)
	121,278	141,050	35,433	33,671
Other debtors	10,345	13,558	5,502	3,558
	131,623	154,608	40,935	37,229
Non current				
Amounts receivable from employees under the Sims Group Limited Employee Share Ownership Plan (note 21(ii))	140	684	140	684
Amounts receivable from controlled entities	-	-	24,962	9,549
Other debtors	2,730	3,666	2,730	3,555
	2,870	4,350	27,832	13,788

The fair value of amounts receivable under the Sims Group Limited Employee Share Ownership Plan is not considered to be materially different to the carrying value (note 31(iv)). Further information relating to related parties and directors is set out in note 26. Amounts in other debtors generally arise from transactions outside the usual operating activities of the consolidated entity. Interest may be charged at commercial rates where the terms of repayment exceed six months. Collateral is not normally obtained.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 30 June 2003

NOTE 8. PROPERTY, PLANT AND EQUIPMENT (continued)

Valuations of freehold land, buildings and leasehold improvements

The directors' valuations were made in June 2002. These valuations were based on the market value with existing use, which for the majority of properties has been determined by independent external valuations as at 30 June 2002 incorporating an allowance made for estimated costs of remediation of properties that may be required.

As at June 2003 the directors reviewed the carrying amounts of these assets and concluded that these do not differ materially from their fair values at that date. In undertaking this review the directors considered advice received from independent external valuers. Assets acquired during the year are deemed to be carried at valuation.

Reconciliation of movements

NOTE 11. PAYABLES

Current

Trade creditors (generally settled within 30 to 60 days)	115,561	112,782	37,200	36,615
Other creditors	17,262	13,770	8,172	1,778
Deferred income	7,935	2,982	-	-
	140,758	129,534	45,372	38,393

Deferred income relates to the refrigerator recycling plant operated in the United Kingdom. Refrigerators are received for recycling by the group in the UK for a fee. These fees are recognised as income as refrigerators are processed and the costs of processing the refrigerators are matched against the related fee income. The deferred income represents the total of the fees that have been received on fridges that remain to be processed through the refrigerator recycling plant.

Non current

Other loans from controlled entities	-	-	95,061	85,787

Other reduction in provision	-	-	-	(26)
Payments	(38,367)	(671)	-	-
Carrying amount at end of year	-	589	-	219

Other current provisions includes estimates of claims that will be made against Sims Group Limited in relation to stevedoring delays and material quality for ferrous exports. These claims are expected to be settled in the next financial year.

The Environmental Compliance provision is an estimate of costs of remediation of properties that may be required in the future. It is not expected to be settled in the next financial year.

Other non current provisions relates to a provision against investments in associated entities.

NOTE 15. CONTRIBUTED EQUITY

	PARENT ENTITY			
	2003 Shares	2002 Shares	2003 \$'000	2002 \$'000
(i) Share capital				
Ordinary shares - fully paid	92,653,057	90,251,565	236,831	219,603

Balance at the end of the financial year	11,935	11,935	-	-
Foreign currency translation reserve				
Exchange differences arising on the translation of foreign controlled entities are taken to the foreign currency translation reserve, as described in note 1(c).				
Asset revaluation reserve				
The asset revaluation reserve is used to record increments and decrements on the revaluation of non current assets, as described in note 1(b).				
(ii) Retained profits				
Retained profits at the beginning of the financial year	96,399	80,353	18,107	26,987
Adjustment resulting from change in accounting policy for providing for dividends (note 1(o))	17,148	-	17,148	-
Net profit attributable to members of Sims Group Limited	75,042	48,525	29,960	23,599
Dividends paid (2002 provided for or paid) (note 17)	(38,367)	(32,479)	(38,367)	(32,479)
Retained profits at the end of the financial year	150,222	96,399	26,848	18,107

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 30 June 2003

NOTE 17. DIVIDENDS

	CONSOLIDATED		PARENT ENTITY	
	2003	2002	2003	2002
	\$'000	\$'000	\$'000	\$'000
Ordinary shares				
Interim dividend paid (at 23c per share (2002 - 17c)):				
Franked at 80% (2002 - fully franked) based on tax paid @ 30%			21,150	15,331
Final dividend at 19c per share recognised as a liability at 30 June 2002 but adjusted against retained profits at the beginning of the financial year on the change in accounting policy for providing for dividends (note 1(o))				
Fully franked based on tax paid @ 30%			17,148	17,148
Final dividend (due to additional shares issued) not recognised as a liability at 30 June 2002			69	-
Total dividends paid (2002 provided for or paid)			<u>38,367</u>	<u>32,479</u>

Dividends not recognised at year end

Since year end the directors have declared the payment of a final dividend of 31c per fully paid ordinary share, franked at 68% based on tax paid @ 30%. The aggregate amount of the proposed dividend expected to be paid on 10 October 2003 out of retained profits at 30 June 2003, but not recognised as a liability at year end as a result of the change in accounting policy for providing for dividends (note 1(o)), is

28,722

The declared dividend will be franked out of existing franking credits or out of franking credits arising from the payment of income tax in the year ending 30 June 2003.

Franking credits available for the subsequent financial year (based on tax rate of 30%)

8,479	6,116	8,479	6,116
-------	-------	-------	-------

The above amounts represent the balances of the franking accounts as at the end of the financial year, adjusted for:

- (a) franking credits that will arise from the payment of income tax payable as at the end of the financial year
- (b) franking debits that will arise from the payment of dividends provided as at the end of the financial year, and
- (c) franking credits that may be prevented from being distributed in the subsequent financial year.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 30 June 2003

NOTE 18. CONTINGENT LIABILITIES

CONSOLIDATED		PARENT ENTITY	
2003	2002	2003	2002
\$'000	\$'000	\$'000	\$'000

Details and estimated maximum amounts of contingent liabilities (for which no amounts are recognised in the financial statements) arising in respect of:

Guarantees

The parent entity, its controlled entities, its joint venture operations and its associated companies have given a number of guarantees in respect of the performance of contracts and workers compensation insurance entered into in the ordinary course of business

459	568	144	437
-----	-----	-----	-----

Controlled entities

Under the terms of a Deed of Cross Guarantee entered into in accordance with ASIC Class Order 98/1418 (as amended by Class Orders 98/2107, 00/0321, 01/1087, 02/0248 and 02/1017) the parent entity has undertaken to meet any shortfall which might arise on the winding up of controlled entities which are party to the deed as described in note 23. The controlled entities are not in liquidation and there is no indication that they will be wound up.

NOTE 19. CAPITAL EXPENDITURE COMMITMENTS

Total capital expenditure contracted for at the balance date but not recognised in the financial statements and payable not later than one year

- for the acquisition of plant and equipment	14,686	5,215	202	1,396
- for the acquisition of land and buildings	-	232	-	-
	14,686	5,447	202	1,396

Commitments included above relating to joint venture operations and associate companies

- for the acquisition of plant and equipment	735	395	108	272
- for the acquisition of land and buildings	-	17	-	-

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 30 June 2003

NOTE 20. LEASE COMMITMENTS

	CONSOLIDATED		PARENT ENTITY	
	2003	2002	2003	2002
	\$'000	\$'000	\$'000	\$'000
Commitments in relation to leases contracted for at balance date but not recognised as liabilities, payable:				
Not later than one year	13,060	13,286	2,065	2,227
Later than one, but not later than five years	33,442	28,765	2,330	3,252
Later than five years	14,667	17,816	1,094	736

	61,169	59,867	5,489	6,215
Commitments for minimum lease payments in relation to non-cancellable operating leases are payable as follows:				
Not later than one year	12,076	11,669	620	665
Later than one, but not later than five years	32,563	27,262	1,419	1,796
Later than five years	14,667	17,816	698	736
	59,306	56,747	2,737	3,197

NOTE 21. SUPERANNUATION, SHARE OWNERSHIP AND OPTION PLANS

(i) Superannuation plans

The parent entity and its controlled entities have established a number of superannuation funds on behalf of Group employees. All employees are entitled to join an appropriate superannuation fund which provides benefits for themselves, or their dependants, on retirement, disability or death. The funds provide defined benefits, based on years of service and final average salary, or accumulation benefits based on the level of contributions and earnings thereon. Employees contribute to the funds at various percentages of their remuneration.

The parent entity and its controlled entities are obliged to contribute to the funds in accordance with their governing Trust Deeds and the obligations are legally enforceable unless due notice of cessation of contribution is given. An actuarial assessment of the Australian defined benefits funds was last carried out on 1 July 2001 by David R Lewis, FIA, FIAA. Based on this review, the assets of the funds at 1 July 2001 of \$41.227m were sufficient to satisfy all accrued and vested benefits at that date under the funds in the event of termination of the funds or voluntary or compulsory termination of the employment of each employee. Vested benefits in the Australian funds at 1 July 2001 were \$38.234m.

The decline in world share markets that commenced in March 2000 has had an adverse effect on the financial condition of the defined benefit superannuation funds sponsored by the Company for its employees. The Trustees of these funds have been monitoring the financial position of the funds to ensure they remain able to meet their liabilities, and that the Company continues to meet its financial commitments to these funds. At 1 April 2003 the independent actuary estimated that a deficiency of approximately \$900,000 existed in these funds.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 30 June 2003

NOTE 21. SUPERANNUATION, SHARE OWNERSHIP AND OPTION PLANS (continued)

In line with actuarial advice received, the Company agreed with the Trustee of the Sims Consolidated Group Superannuation Fund to make additional monthly contributions of \$50,000 into that fund from April 2003. This additional contribution is being reflected in the Company's superannuation expense as it is paid. No liability has been recognised in the financial statements in respect of this deficiency. The actuarial recommendation was that this additional contribution should continue for up to two years i.e. until March 2005 subject to ongoing performance review.

Since April 2003 investment markets reviews have been more favourable so the financial position of the funds will have improved. The next full formal review of the superannuation funds' financial positions will be as at 30 June 2003 and the outcome of the review should be available to the Company and Funds' Trustees at the start of October 2003.

The Group's UK operations account for pension costs and commitments in the financial statements in accordance with the United Kingdom Accounting Standard SSAP 24 "Accounting for pension costs". This accounting standard requires employers to recognise the expected cost of providing pensions on a systematic and rational basis over the period during which they derive benefit from the employees' services. This is achieved by recognising a regular cost for the pension every year. Variations from the regular cost are allocated over the expected remaining service lives of the current employees.

A full formal actuarial assessment of the United Kingdom defined benefits fund is currently being undertaken by the fund's actuary Sally Spencer, FIA, in respect of the funding position as at 5 April 2003. The outcome of this assessment should be available to the Company and the fund's trustees at the start of October 2003. For the purposes of the financial statements, the Company commissioned an informal assessment of the fund by Ali Tayyibe FIA of Mercers, its independent pensions advisors. Based on this informal review, on a SSAP24 basis, the assets of the fund at 5 April 2003 were estimated to be \$17.561m, and were insufficient to satisfy all accrued and vested benefits at that date under the fund in the event of termination of the fund or voluntary or compulsory termination of the employment of each employee. Vested benefits in the United Kingdom fund at 5 April 2003 were estimated to be \$27.204m.

The estimated deficiency in the United Kingdom fund is a result of the decline in world equity markets as noted previously. The deficiency will be funded by an estimated additional annual contribution of \$0.971m by the company over the next 15 years, being the actuarial best estimate of contributions required to meet the current deficit. The estimated additional annual contribution will be reflected in the company's superannuation expense in the year. An accrual of \$1.018m has been recognised in the financial statements at 30 June 2003.

(ii) Share ownership and option plans

The parent entity operates the Sims Group Limited Employee Share Ownership Plan ("share plan") which was established in 1991 and amended in November 1996. The share plan allows for the participation, at the discretion of the Board, of employees and executive directors of the parent entity and its controlled entities. Monies are lent, interest free, to participants to enable them to acquire shares in the parent entity which are held by the trustee of the share plan for the benefit of participants. Shares are issued to employees at the market value at the date of issue in accordance with the terms of the share plan.

At 30 June 2003, the parent entity had loaned \$139,500 to participants to enable them to acquire, through the trustee of the share plan, 30,000 shares, being 0.03% of the issued capital of the parent entity. Amounts loaned to employees through the share plan are included in receivables. Loans in respect of 30,000 shares issued at \$5.81 each on 30 November 1999 are repayable by 2004 at the latest. All shares that have been allocated for issue under the share plan had been issued at 30 June 2003.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 30 June 2003

NOTE 21. SUPERANNUATION, SHARE OWNERSHIP AND OPTION PLANS (continued)

Details of the above are as follows :	Number		Shares		Loans S'000	
	2003	2002	2003	2002	2003	2002
Employees	2	4	30,000	135,000	140	684

The Sims Group Limited Group Employee Option Plan ("option plan"), approved by shareholders on 8 November 1996, provides that executive and management staff members may be invited to participate in the option plan and be granted options over unissued ordinary shares in the parent entity. A separate incentive plan exists for Mr Sutcliffe, the Group Chief Executive. Options are granted for nil consideration. The amount received on the exercise of options is recognised as issued capital at the date of issue of the shares.

Details as at 30 June 2003 are as follows:

Date Issued	Exercisable From	Expire On	Exercise Price AS	Number Issued	Total Lapsed to Date	Total Exercised to Date	Balance at end of year
28 November 1996	28 November 1998	28 November 2001	7.14	2,015,000	2,015,000	-	-
27 April 1998	27 April 2000	27 April 2003	8.29	1,040,000	110,000	930,000	-
01 September 1998	01 September 2000	01 September 2003	6.54	1,540,000	455,000	1,015,000	70,000
16 November 1998	16 November 2000	16 November 2003	6.46	250,000	-	196,492	53,508
30 November 1999	30 November 2001	30 November 2004	6.39	280,000	30,000	240,000	10,000
31 July 2000	31 July 2002	31 July 2005	5.86	90,000	-	90,000	-
28 February 2002	28 February 2005	28 March 2007	6.75	193,798	-	-	193,798
				5,408,798	2,610,000	2,471,492	327,306

The fair value of shares under option at 30 June 2003 was \$8.80 (2002 \$6.77).

	CONSOLIDATED		PARENT ENTITY	
	2003	2002	2003	2002
	\$	\$	\$	\$
Aggregate proceeds received from employees on the exercise of options and recognised as issued capital	17,227,838	450,300	17,227,838	450,300
Fair value of shares issued to employees on the exercise of options as at their issue date	19,697,795	502,500	19,697,795	502,500

The fair value of shares issued on the exercise of options is the average price at which the Company's shares were traded on the Australian Stock Exchange on the day the options were exercised.

MAJOR CAPS HEADING

for the year ended 30 June 2003

NOTE 23. INVESTMENTS IN CONTROLLED ENTITIES (continued)

Note (a) Shares held in these entities include preference shares.

(i) Controlled entity audited by other PricewaterhouseCoopers firm.

(ii) These entities and the Company are parties to a Deed of Cross Guarantee under which each entity guarantees the debts of the others. By entering into the deed, the wholly-owned entities have been relieved from the requirement to prepare a financial report and directors' report under Class Order 98/1418 (as amended by Class Orders 98/2017, 00/0321, 01/1087, 02/0248 and 02/1017) issued by the Australian Securities & Investments Commission. The above entities represent a Closed Group and an Extended Closed Group for the purposes of the Class Order.

(iii) Ferromet Inc was disposed of on 31 March 2003 (2002: Sims Rush Pty Ltd - 31 October 2001) and details of sale are as follows:

NOTE 24. INVESTMENTS IN ASSOCIATES (continued)

(v) Share of contingent liabilities and capital expenditure commitments of associates

The consolidated entity's share of the associates' contingent liabilities and capital expenditure commitments is included in notes 18 and 19.

NOTE 25. INTERESTS IN JOINT VENTURES

The consolidated entity has the following interests in joint venture operations:

- 50% interest in the Australian Refined Alloys joint venture, the principal activity of which is the production of lead, lead alloys and related products.
- 50% interest in the New Zealand based Sims Pacific Metals joint venture, the principal activity of which is the processing and sale of ferrous and non ferrous secondary raw materials.
- 33.3% interest in the Consolidated Extrusions joint venture, the principal activity of which is the production and sale of extruded brass and copper products.

The consolidated entity's interest in assets employed in the joint ventures is included in the statements of financial position under the classifications shown below:

	CONSOLIDATED		PARENT ENTITY

PARENT ENTITY

2003	2002
\$'000	\$'000

Amounts receivable and payable to other related parties

Aggregate amounts receivable at balance date from:

Non current				
Entities in the wholly owned group (note 5)	-	-	24,962	9,549

Aggregate amounts payable at balance date to:

Non current				
Entities in the wholly owned group (note 11)	-	-	95,061	85,787

Amounts receivable and payable to other related parties have no fixed terms of repayment and no interest is charged, except for a loan to a controlled entity (included in non current receivables).

Controlling entity

The ultimate parent entity in the wholly owned group is Sims Group Limited.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 30 June 2003

NOTE 27. SEGMENT INFORMATION

Geographical segments

The consolidated entity's operations span the globe with facilities spread throughout Australia, New Zealand, Papua New Guinea, the United States of America, United Kingdom, Canada, China, Malaysia and India.

The major geographical areas of operation are as follows:

Australia - comprising Australia, Papua New Guinea, China, Malaysia and India

North America - comprising the United States of America and Canada

New Zealand

United Kingdom

Business segments

The consolidated entity operates predominantly in the secondary metal recycling industry. Its core business involves ferrous and non-ferrous secondary raw materials recycling and secondary processing.

Ferrous secondary recycling comprises the collection, processing and trading of iron and steel secondary raw material.

Non-ferrous secondary recycling comprises the collection, processing and trading of other metal alloys and residues, principally aluminium, lead, copper, zinc and nickel bearing materials.

Secondary processing is a value adding process involving the melting, refining and ingoting of certain non ferrous metals, the production of extruded products and the reclamation and reprocessing of plastics.

NOTE 31. FINANCIAL INSTRUMENTS (continued)

	CONSOLIDATED		PARENT ENTITY	
	2003	2002	2003	2002
	\$'000	\$'000	\$'000	\$'000
Great Britain Pounds (GBP) - Buy Euro, Sell GBP Up to 12 months - at rates averaging Euro 1.4170 to GBP (2002 Euro 1.5954 to GBP)	3,828	602	-	-
At balance date net deferred costs on these contracts calculated by reference to the current forward rates for contracts with similar maturity profiles amounted to:	206	19,418	406	20,233

The actual financial result will be dependent upon the exchange rate at the settlement dates and will be brought to account within future sales revenue in accordance with note 1(c).

(ii) Interest rate swap contracts

Bank loans of the consolidated entity currently bear an average variable interest rate of 3.89%. It is policy to protect part of the loans from exposure to increasing interest rates. Accordingly, the consolidated entity has entered into interest rate swaps under which it is obliged to receive interest at variable rates and to pay interest at fixed rates. The contracts are settled on a net basis and the net amount receivable or payable at the reporting date is included in other debtors or other creditors.

The contracts require settlement of net interest receivable or payable within 90 days. The settlement dates coincide with the dates on which interest is payable on the underlying debt.

Swaps currently in place cover 100% (2002 - 52.1%) of the loan principal outstanding and are timed to expire as each loan repayment falls due. The balance of the swaps expire by 17 September 2003. The fixed interest rate is USD Nil% (2002 - 5.61%), GBP 4.95% (2002 - 4.95%) and the variable rates are equal to the 90 day Libor for the GBP swap, which at last setting was GBP 3.64%.

(iii) Interest rate risk exposures

The consolidated entity's exposure to interest rate risk arises predominantly from assets and liabilities bearing variable interest rates as the consolidated entity intends to hold fixed rate assets and liabilities to maturity. The effective weighted average interest rate for each class of financial assets and financial liabilities is as follows:

Provisions	14	(17,042)	(36,113)
Net assets per statements of financial position		336,970	338,838

(iv) Net fair value of financial assets and liabilities

The net fair value of financial assets and liabilities approximates their carrying amounts. The loans advanced under the Sims Group Limited Employee Share Ownership Plan (note 21(iii)) are repayable by 2004 at the latest (loans advanced in November 1999). The employees will also provide services over the periods of the loans which will be held until maturity. In these circumstances and with the current and forecast low interest rates and the continuing repayments, the fair value of these loans is not considered materially different from their book values.

DIRECTORS' DECLARATION

The directors declare that the financial statements and notes set out on pages 31 to 74:

- (a) comply with Accounting Standards, the Corporations Regulations 2001 and other mandatory professional reporting requirements; and
- (b) give a true and fair view of the Company's and consolidated entity's financial position as at 30 June 2003 and of their performance, as represented by the results of their operations and their cash flows, for the financial year ended on that date.

In the directors' opinion:

- (a) the financial statements and notes are in accordance with the *Corporations Act 2001*; and
- (b) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable; and
- (c) at the date of this declaration, there are reasonable grounds to believe that the members of the Extended Closed Group identified in note 23 will be able to meet any obligations or liabilities to which they are, or may become, subject by virtue of the deed of cross guarantee described in note 23.

This declaration is made in accordance with a resolution of the directors.

AUDIT REPORT

to the members of Sims Group Limited

Audit opinion

In our opinion, the financial report of Sims Group Limited, set out on pages 31 to 75:

- gives a true and fair view, as required by the *Corporations Act 2001* in Australia, of the financial position of Sims Group Limited and Sims Group (defined below) as at 30 June 2003, and of their performance for the year ended on that date
- is presented in accordance with the *Corporations Act 2001*, Accounting Standards and other mandatory professional reporting requirements in Australia, and the Corporations Regulations 2001.

This opinion must be read in conjunction with the rest of our audit report.

Scope

The financial report and directors' responsibility

The financial report comprises the statement of financial position, statement of financial performance, statement of cash flows, accompanying notes to the financial statements, and the directors' declaration for both Sims Group Limited (the company) and Sims Group (the consolidated entity), for the year ended 30 June 2003. The consolidated entity comprises both the company and the entities it controlled during that year.

The directors of the company are responsible for the preparation and true and fair presentation of the financial report in accordance with the *Corporations Act 2001*. This includes responsibility for the maintenance of adequate accounting records and internal controls that are designed to prevent and detect fraud and error, and for the accounting policies and accounting estimates inherent in the financial report.

Audit approach

We conducted an independent audit in order to express an opinion to the members of the company. Our audit was conducted in accordance with Australian Auditing Standards, in order to provide reasonable assurance as to whether the financial report is free of material misstatement. The nature of an audit is influenced by factors such as the use of professional judgement, selective testing, the inherent limitations of internal control, and the availability of persuasive rather than conclusive evidence. Therefore, an audit cannot guarantee that all material misstatements have been detected.

We performed procedures to assess whether in all material respects the financial report presents fairly, in accordance with the *Corporations Act 2001*, Accounting Standards and other mandatory financial reporting requirements in Australia, a view which is consistent with our understanding of the company's and the consolidated entity's financial position, and of their performance as represented by the results of their operations and cash flows.

We formed our audit opinion on the basis of these procedures, which included:

- examining, on a test basis, information to provide evidence supporting the amounts and disclosures in the financial report, and
- assessing the appropriateness of the accounting policies and disclosures used and the reasonableness of significant accounting estimates made by the directors.

We read the other information in the Annual Report to determine whether it contained any material inconsistencies with the financial report.

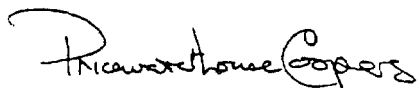

While we considered the effectiveness of management's internal controls over financial reporting when determining the nature and extent of our procedures, our audit was not designed to provide assurance on internal controls.

Our audit did not involve an analysis of the prudence of business decisions made by directors or management.

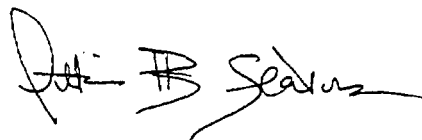

I N D E P E N D E N T
AUDIT REPORT
to the members of Sims Group Limited

Independence

In conducting our audit, we followed applicable independence requirements of Australian professional ethical pronouncements and the *Corporations Act 2001*.
